Malika HAMIDI est docteure en sociologie et spécialiste des féminismes musulmans en Europe. Elle est actuellement chercheuse post-doctorale à l’Université Saint Louis et suppléante associée à l’Université Libre de Bruxelles. Enfin, elle est chercheuse associée au L.A.S.P.A.D de l’Université Gaston Berger de Saint – Louis du Sénégal.

Ces dernières années, un intérêt croissant se manifeste de manière récurrente autour d’un thème incontestablement politique en Occident comme dans le monde musulman : la politisation du corps des femmes musulmanes dans l’espace public, véritable champ de bataille en temps de crises, et notamment dans le contexte actuel marqué par la prééminence du fait ethnique et religieux. C’est dans ce contexte que l’on voit émerger un nouveau profil de femmes à la fois féministes et musulmanes, dont la “rhétorique” peut paraître déroutante, voire inquiétante, mais qui est pourtant inclusive. Elles vont à la fois contester un discours islamique exacerbé à l’endroit des femmes tout en défiant la normativité d’une pensée féministe occidentale dominante qui les infantilise. Cet ouvrage illustre le passage de “l’élaboration théorique à l’agir féministe” des femmes musulmanes engagées dans cette révolution silencieuse qui émerge au début des années 90. Whereas, almost all Catholic moral theologians and ethicists do not have many problems receiving the negative judgment of *Donum Vitae* on heterologous artificial insemination and regular IVF as procedures of generating human life, only few find it difficult and unacceptable for the Simple Case IVF to be proscribed because they consider it less problematic. The Catholic Scholars who express dissent against the evaluation and conclusion of the Magisterium on the Simple Case seem to suggest that the destruction of human embryos and the use of a donor constitute the only problem of this procedure. But their reasoning can be considered inadequate because it fails to understand the theological and moral basis for the dignity of human procreation. The fact that the Simple Case IVF violates the principle of inseparability of the conjugal act by seeking the generation [...] [Click here to read more.](#)

Le Concile Vatican II appartient-il à un passé révolu? Ou fait-il tellement partie de la vie de l’Église que nous ne sommes plus conscients qu’il reste «une boussole fiable» pour nous orienter aujourd’hui? Alors que le pape François propose de courageuses réformes et la voie nouvelle de la synodalité, Vatican II refait surface de façon surprenante, offrant les ressources de ses reformulations doctrinales et l’exemple de la responsabilité de ses acteurs. L’ouvrage montre comment la longue histoire où s’inscrit Vatican II, de sa préparation à sa célébration et sa réception, est toujours ouverte. Il nous pousse à valoriser l’héritage conciliaire en fidélité à l’Évangile du Christ et à l’Esprit Saint, pour progresser en Église vers un monde plus fraternel.

Why is it that churches agree to the same basic faith in hundreds of dialogues, and yet remain locked in an „ecumenical winter“? In *Choose the Narrow Path*, Bishop Pierre Whalon argues that to acknowledge the same doctrines while acting as if churches should remain separate is not only a recipe for disaster, but it is also itself a sin. This book spells out that doctrinal agreement in Part I, while Part II uncovers a more personal reaction, structured around the Nicene Creed. The primary argument is that, while churches may be „one,“ „holy,“ and „catholic“ in what they believe, none of them is truly „apostolic“ in their action. To begin to address this failing, the author calls for exceptional intercommunion for members of all churches that subscribe to the Narrow Path but are still reluctant to walk it together.

“Bishop Pierre Whalon ... offers clear points about the challenges that Churches face, but also a way forward through what he describes as “the narrow path.”
- The Most Reverend Michael Curry, Presiding Bishop and Primate of The Episcopal Church

“Bishop Pierre Whalon’s *Choose the Narrow Path* is a much needed and highly accessible handbook of the contemporary Ecumenical Movement for the unity of the Christian Churches.”
- The Right Reverend R. William Franklin, Assistant Bishop, Diocese of Long Island

“Bishop Pierre Whalon has gone beyond the rhetoric to produce a sound scriptural-based systematic treatise with concrete practical applications. The book ... may well be the catalyst, as the subtitle suggests, That Opens the Way for the Churches to Walk Together.”
- Prof. Cyril Orji, Professor of Systematic Theology, University of Dayton, OH

“Bishop Whalon’s *Choose the Narrow Path* is ... a book for Christians of all stripes to read, mark, learn, and inwardly digest—great for study groups and church leaders alike.”
- The Very Reverend Dr. William S. Stafford, Dean Emeritus of The School of Theology, Sewanee, USA

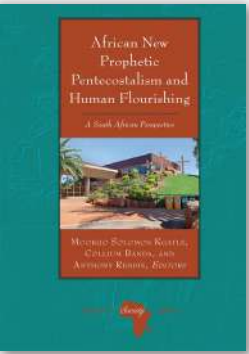

"To walk any narrow path with a precipice on either side is very dangerous, but Bishop Pierre Whalon proves to be an excellent and sure-footed guide for the churches to try to walk together. He calls for action now so that we can avoid the scandal of disunity which threatens to plunge us into the depths, and instead to witness together to Jesus the Risen Christ."

The book is a significant new analysis of African Pentecostal theology of humanity. In particular, it offers a new, more comprehensive interpretation of African Pentecostal theology of humanity 'in Christ', which author Chammah J. Kaunda views in terms of becoming, transcending and flourishing. The book takes an interdisciplinary approach, fostering dialogue with African studies and Pentecostal studies, but also with a broad spectrum of disciplines and approaches: post-colonial studies, theology, religious studies, cultural anthropology, and philosophy. The aim is to construct a new conceptual metaphor, the poetics of mysticality, materiality and plasticity. In the Bemba (Zambian) notion of Muntu, the author identifies not only a metaphor [...] [Click here to read more.](#)

This book investigates the question of human flourishing in African New Pentecostalism in South Africa. In a context marked by deep economic inequality and high unemployment, many poor South Africans rely on African New Pentecostal prophets to bring spiritual meaning to their lives. Collectively, and using various theoretical frameworks and methods, the authors of this volume analyze and critique the concept of this pursuit, and ask what can be done to challenge African New Pentecostal prophets to respond effectively. The book will be of interest to academics, pastors, researchers and university students in Pentecostalism in Africa, Missiology and Science of Religion, Sociology and Psychology of Religion and the public role of religion in South Africa and beyond.

"This volume provides a uniquely fresh perspective on African Pentecostalism by linking three important discursive fields: human flourishing, charismatic Pentecostalism, and decoloniality. The volume provides important insights into the normative notions brought forward by prophetic Pentecostalism on what constitutes a good life. It thereby substantially advances the debate on Pentecostalism and prosperity. Even though the book zooms in on South Africa, its chapters bear relevance far beyond. The volume is therefore a must-read for anyone wanting to engage with current trends in African Christianity."
- Philipp Öhlmann, Associated Senior Researcher, Center for Rural Development, Humboldt University; Research Fellow, Department of Theology and Religious Studies, University of Botswana

"This is an intellectually stimulating, original, and thought-provoking contribution to the field of African Pentecostal Studies. It has not failed to deliver and must be read to understand new creative interpretations of the movements by African Christian scholars."
- Chammah Kaunda, Assistant Professor, Yonsei University, South Korea; Extraordinary Professor, University of the Western Cape, South Africa

"This important book creatively explores human flourishing in the context of New Prophetic Pentecostalism in Africa. It should be read by all who are interested in the most recent developments of Southern African Pentecostalism and those concerned about genuine human flourishing in the church and wider society."
- Dr. Simo Frestadius, Dean of Research, Regents Theological College; Executive Director, Institute for Pentecostal Theology; Chair, European Pentecostal Theological Association

Die Wirkungsgeschichte der Wittenberger Reformation in Bayern und von dort aus nach Nordamerika und in den Pazifik und den Ostasiatischen Raum wird im vorliegenden Band punktuell dargestellt: Während Altbayern sich weitgehend der Reformation verschloss, wie Luthers Ingolstädter Gegenspieler Johannes Eck bezeugt, ist der Einfluss Wittenbergs im heutigen Bayern deutlich zu spüren. Durch Luthers Erziehungsgedanken, durch die selektive Rezeption Luthers bei Wilhelm Löhe, einem der Gründerväter des Luthertums in den USA und Wegbereiter der weltweiten Mission, oder durch die Erlanger Theologie Werner Elerts. Historisch gesehen haben Nürnberg (mit Melanchthon) und Regensburg (mit Nikolaus Gallus und dem Reformationsaltar) den Wittenbergern viel zu verdanken. Selbst die Frauenordination ist vom reformatorischen Priestertum aller Gläubigen her beeinflusst.

Die Theologie ringt mit ihrer digitalen Zukunft. Wie weit kann sie sich auf den digitalen Logos einlassen, ohne ihren eigenen Logos aus den Augen zu verlieren? Die Beiträge dieses Buches versuchen, darauf eine Antwort zu geben, indem sie in interdisziplinärer Breite aktuelle Debatten um die Digitalisierung aus einer jungen Perspektive reflektieren. Das Verhältnis von Theologie und Digitalität wird unter anderem aus einem (religions)philosophischen, ethischen, systematisch-theologischen und ökumenischen Blickwinkel thematisiert. Ein besonderes Kennzeichen dieses Buches sind die kreativen Köpfe dahinter: die Mehrheit der AutorInnen sind NachwuchswissenschaftlerInnen, die als Digital Natives im wissenschaftlichen Diskurs noch (zu) wenig wahrgenommen werden. Damit richtet sich das Buch aber nicht allein an das junge akademische Publikum. Es soll vielmehr ein Impulsgeber für die Theologie insgesamt werden.

Christianity: Old Testament

This book successfully mines the rich theology of Passover through fresh exegesis that reads the text according to ancient Hebrew literary conventions. The results indicate that the original author viewed Passover as having far more theological depth than is typically acknowledged today. Numbers 3:13 indicates that during Passover Yahweh consecrated the firstborn. Yet, how did he do this? Through a close reading of the final form of the text and sensitivity to ancient Hebrew style, the author perceptively notes the connections between Passover and other rituals in Exodus. He suggests that Passover is a ritual that not only rescues the firstborn from death through sacrifice, but also purifies and sanctifies them. The firstborn are moved from the realm of death to life and after being imbued with holiness, made fit to enjoy Yahweh's presence. [...] [Click here to read more.](#)

THE PASSOVER
A Literary and Theological Analysis of Exodus 12:1-13:16

"Centred on Passover, God's deliverance of the Israelites from captivity in Egypt is the great salvation event of the Old Testament. Yet, the theological dimension of Passover has received little attention. Dr Gehrig's monograph fills this major hiatus, offering an insightful interpretation of Exodus 12-13. Highlighting how Passover functions as a sanctification ritual, his conclusions are exceptionally important for readers of the New Testament who see no soteriological significance in the original Passover event".
- T. Desmond Alexander, Senior Lecturer in Biblical Studies Union Theological College, Belfast

"A number of factors make this a deeply satisfying study: It is comprehensive in its responsible engagement with a wide variety of views on the text and its background; it is critical in its judicious assessments of such a variety of views; and it is highly competent in its application of poetics to a well-disciplined "literary and theological approach" to reading its target text. Further, its writing style is incredibly clear—perhaps the crowning achievement! Besides its noteworthy contribution to the study of the Passover text in Exodus, it promises to open up fresh avenues of insight in the study of the Hebrew Bible more widely (and to the New Testament as well). I hope this work gains a wide readership".
- C. John Collins, Professor of Old Testament Covenant Theological Seminary

"Here is a book that is long overdue. Paying close attention to narrative features that have previously been misinterpreted or ignored, Gehrig demonstrates how important these are for a holistic interpretation of one of Scripture's most seminal texts, as well as its theological significance within the book of Exodus and beyond. Those wanting a comprehensive and eminently engaging discussion of the Passover narrative in Exodus need look no further".
- Paul Williamson, Lecturer in Old Testament Moore College, Sydney

Literary Allusions in Esther: A Study on the Convergence of Intertexts and Narrative examines the robust intertextual nature of MT Esther. Its textual landscape is filled with a plethora of allusions to other texts scattered throughout the Old Testament canon. While these intertexts have often been identified individually, they have not always been considered a collective whole. By employing a new, eclectic method of exegetical analysis ('Analogical Convergence'), the author demonstrates one means by which these intertexts complement one another and converge with the authorial intention embedded into MT Esther. In *Literary Allusions in Esther*, Ron Lindo offers a nuanced and sophisticated engagement with the book of Esther. His survey of proposed 'intertexts' in secondary literature is comprehensive yet [...] [Click here to read more.](#)

"The basis for a compelling new account of Esther's thrust as a story. Literary Allusions in Esther makes important contributions to the field, and should feature in further discussions of the story's shape and the extent to which it interacts with other texts from antiquity."
- John Screnock, Tutor in Old Testament, Wycliffe Hall, University of Oxford

"That Esther is a work which is composed with allusion to other texts is now increasingly recognized. This work makes an important contribution by establishing a disciplined method for understanding this and how both the surface text and its interaction with other texts in the Old Testament contribute to its meaning. Scholars working on Esther will need to engage with this disciplined and careful work."

This book focuses on Luther's very last lectures, which interpret the Joseph story in the final chapters of Genesis. Scholars have frequently neglected the later Luther and the Genesis Lectures, making this an important new contribution to the field. Luther's lectures are not a modern scientific commentary, but *enarrations*, as Kenneth Hagen calls them, filled with public proclamation, expanded narrative, and a performative sense of language. The author furthers Oswald Bayer's performative interpretation of Luther's theology with a more sophisticated linguistic philosophy, while continuing Bayer's theological direction. The book is an important new contribution to Luther studies and will be of interest to [...] [Click here to read more.](#)

"Peter D. S. Krey offers a theologically expansive and polyvalent reading of Luther's lectures on the last chapters of Genesis, the story of Joseph and his family in Egypt. Composed at the end of his days, the lectures were fully informed not only by Luther's mature theology, but also by his own lifelong struggles with hopelessness and fear. Krey's writing is lively, at times moving, his scholarship capacious. His book calls renewed attention to this most important work just when our own deeply troubled world needs it most."
- Christine Helmer, Peter B. Ritzma Chair of Humanities, Professor of German and Religious Studies, Northwestern University

"Dr. Peter Krey takes the reader on an energetic ride, as he examines Luther's reading of the Joseph Story through a variety of intriguing interpretive lenses. With his unique and empathetic approach, Krey has accumulated an original examination of a key section of Luther's Genesis lectures. Luther is alive on these pages that lay out the complexity of his theological language in ways that resonate with both mind and heart."
- Rev. Dr. Brooks Schramm and Rev. Dr. Kirsi Stjerna, Editors/Authors of Martin Luther, the Bible, and the Jewish People

Ezekiel has often been called 'the prophet of the spirit' because of his surpassing use of the word רוּחַ, 'spirit'. The main argument of this book is that Ezekiel's 'spirit' motif conveys a polysemous symbolism which, nonetheless, accentuates an overarching leit-motiv. Ezekiel's 'spirit' symbolism signifies a paradigm shift in ancient Israelite visualization of divine presence in Israel: from visible phenomena and experiences, mediated through rituals at cultic shrines in Israel, to an omnipresence that is not necessarily mediated through cultus. Moreover, author Samuel W. Muindi posits that the African Pentecostal 'en-spirited' worldview is an apt hermeneutical lens for understanding Ezekielian 'spirit' symbolism. The experiences of [...] [Click here to read more.](#)

In this monograph, the author demonstrates that the Acts of the Apostles is a highly creative hypertextual reworking of the Letter to the Galatians, with over 500 strictly sequentially organized conceptual and linguistic correspondences between Acts and Galatians. This hypertextual dependence on Galatians explains numerous surprising features of Acts. Critical explanations of these features, which are offered in this monograph, ensure the reliability of the new solution to the problem of the relationship between Acts and the Pauline and post-Pauline letters.

Throughout history, the Fourth Gospel has been an enigma to its readers, and most notably in the way that it shapes its characters. Although traditional approaches to gospel characterization have often confined its characters to the pages of the text, The Voices of the Fourth Gospel presents a fresh, interdisciplinary approach that reveals the characterizations of the Fourth Gospel as vibrant, literary products based on eyewitness testimony of their encounters with Jesus of Nazareth. As such, the characters of the Fourth Gospel emerge as unique "voices" that speak to both the realities of their narrative world and the context of the emerging Christian community in Ephesus at the end of the first century. Based on the Fourth Gospel's chronological and geographical distinctions, The Voices of the Fourth Gospel challenges its readers to hear the voices of each character [...] [Click here to read more.](#)

Rechtsprinzipien (*qawā'id fiqhīya*) genießen im zeitgenössischen Rechtsdiskurs eine bemerkenswerte Anerkennung und werden nicht selten zum Gegenstand wissenschaftlicher Arbeiten gemacht. Nicht zuletzt finden sie auch zur Begründung und Generierung von Rechtsnormen respektive Rechtsaukünften häufig Verwendung. Doch welche normativ-juristischen Funktionen erfüllten Rechtsprinzipien im klassischen Kontext, in dem sie ihren Sitz im Leben hatten? Schrieb man ihnen etwa eine normstiftende Bedeutung zu? Der vorliegende Band arbeitet durch eine qualitative Inhaltsanalyse der Texte des osmanischen Gelehrten Abū Sa'īd al-Ḥādīmī (gest. 1176/1762) die Verwendungsanlässe der Rechtsprinzipien heraus und beantwortet die soeben gestellten Fragen am Beispiel von al-Ḥādīmī, einem der bekanntesten und einflussreichsten osmanischen Gelehrten des 18. Jahrhunderts. Zwar lebte dieser in der postklassischen Phase, hielt jedoch an der klassischen Rechtstradition fest. Die Tatsache, dass al-Ḥādīmī am Vorabend der Moderne dynamisierende Elemente des Rechts hervorhob [...] [Click here to read more.](#)

Dem Begriff ‚Pflicht‘ (*wāḡib/fard*) wird sowohl im *fiqh* als auch in den *uṣūl al-fiqh* ein größerer Stellenwert beigemessen als dem Begriff ‚Recht‘ (*ḥaqq*), was sich in den klassischen *fiqh*- und *uṣūl*-Quellen kaum widerspiegelt. Dies hat einige Gelehrte zu der Äußerung bewogen, dass der Islam im Allgemeinen und das islamische Recht im Besonderen keine Rechte gewähre, sondern eine Religion der Verpflichtungen sei. In dieser Arbeit widmet sich der Autor der Leitfrage, warum der Begriff *wāḡib* sowohl im *fiqh* als auch in den *uṣūl al-fiqh* Vorrang vor dem Begriff *ḥaqq* hat. Damit verknüpft ist die Frage, ob die Rechte Gottes in den *uṣūl al-fiqh* tatsächlich gegenüber den Rechten der Menschen priorisiert werden. Der Schwerpunkt dieses Buches liegt dabei auf dem Verhältnis zwischen den Rechten Gottes [...] [Click here to read more.](#)

JULIAN OF NORWICH IN HER PHENOMENOLOGY

Julian of Norwich in Her Phenomenology engages Julian's primordial religious experience of May 1373; her subsequent definition to its revelation within her spiritual texts; and their hermeneutics made manifest from centuries of historical context. The meaning of Julian's experience continued to unfold throughout her life: with its grace, and by insight with her own use of phenomenological method. The historical manifestation of Julian's graced experience is given its closest phenomenological expression within her Short Text (Amherst) and in her Long Text (Sloane), with their collective human-Divine collaborations. But first, they arise phenomenally for Julian in the reciprocal gaze exchanged between her God and her soul. It is by God's Trinitarian gift of love, and in her grace-filled collaboration with [...] [Click here to read more.](#)

"You have done a magnificent study of Julian. The initial chapters are splendidly researched though I missed the Syon Abbey contribution. Then I loved your final chapters where the footnotes keep giving Julian's text. I especially applaud your seeing the Carmelite aspect which I don't think others have."

- Julia Bolton Holloway, Hermit of the Holy Family, Florence

"A new work on Julian of Norwich is always a cause for celebration and Dr Clemmer's book is no exception. The reader is enabled to follow Julian closely before, during and after her unique visionary experience, examining contemporary history and spirituality from many angles. And the story continues right up to Edith Stein in the twentieth century. This book will delight all Julian lovers, as well as others who want to know Julian better and appreciate her in greater depths."

- Sr Elizabeth Ruth Obbard ODC, Quidenham Carmel, Norwich

How should Christians read the Bible to learn about God? This is a perennial issue in Christianity and a variety of answers have of course been given over time. Perhaps the most profound answer to this question in the twentieth century came from Brevard S. Childs, an Old Testament professor, whose 'canonical approach' sought to redefine how the Bible is used in the Church.

Childs' Canonical Approach: A Critical Assessment provides a fresh study of Childs' approach from the perspective of biblical studies. It makes two arguments that break new ground. Firstly, it argues that Childs' approach consists of three main elements that were variously developed and implemented over time: the theory of canonical [...] [Click here to read more.](#)

"The 'canonical approach' to the Bible pioneered by Brevard S. Childs appeals to many Christians who want to understand Scripture as a coherent and self-consistent work in the form it now has - however it came into being. In this dissenting examination of 'canonical reading' Robert Brown shows that it comes at too high a price, obscuring the diversity of Scripture and flattening it out. Those attracted by the approach, as a way of finding positive and constructive teaching in the Bible, will be forced to look critically at its possible drawbacks too. A clear and incisive critique of a much-lauded current fashion in biblical interpretation, seen by many as a way to 'reclaim' the Bible for the church."

- John Barton, FBA, Emeritus Oriel & Laing Professor of the Interpretation of Holy Scripture, University of Oxford, and Senior Research Fellow of Campion Hall, Oxford

"The task of reuniting biblical studies and theology is a crucial one for both disciplines, at least for those, like Robert Brown, who seek to understand how the scriptures speak to them of God. For many, the work of Brevard Childs has seemed to be the magic bullet, but his work is too often misunderstood by admirer and detractor alike. This careful study addresses these misunderstandings with clarity and precision, offers a much-needed analysis of the central concept of 'canonical shaping', and suggests ways forward that unite the synchronic and the historical-critical approaches. It is essential reading for anyone aspiring to do biblical theology in the 21st century."

- Richard Ounsworth, Fellow and Tutor in Scripture at Blackfriars, Oxford

Aleksandr Men' (1935–1990) gilt als einer der bedeutendsten orthodoxen russischsprachigen Theologen des 20. Jahrhunderts, jedoch wurde sein Konzept einer theologischen Erlösungslehre bisher nicht systematisch untersucht. Bei der Entwicklung seiner theologischen Ideen beteiligt sich Men' einerseits an den orthodoxen Debatten um eine Auslegung der Erlösungstat Jesu Christi. Andererseits lässt sich aber in seinem Werk auch eine intensive Auseinandersetzung mit der westlichen (vor allem der protestantischen) Exegese nachweisen. Die Autorin nutzt einen innovativen methodischen Ansatz, der in der bisherigen Forschung zu seiner Person und seinem theologischen Denken wenig beachtet wurde. Es handelt sich dabei um eine Systematisierung von Men's Beschäftigung mit den Fragen und Themen, die die orthodoxe Theologie am Ende des 19. [...] [Click here to read more.](#)

"This is a remarkable book that represents a groundbreaking exploration of the intricate connections between Leviticus and Malagasy traditional rituals. The author's meticulous analysis and profound insights into the themes of sin, sacrifice and atonement offer invaluable knowledge for Christian readers. I highly recommend this work to anyone seeking a comprehensive understanding of Madagascar's religion, particularly its rich tapestry of traditional rituals."
- Dr. Razivelo Mariette, Lutheran Faculty of Theology (SALT), Madagascar

"Rituals for purification play a significant role in most cultures, and this book contributes to the understanding of these phenomena in general. It provides insight into these rituals in Malagasy society and their description in the Book of Leviticus in the Bible. The book focuses on religious praxis, as described in texts and demonstrated in life. Every person will encounter these phenomena, and here is a tool to grasp their meaning."

"Nathan Ron sets the record straight about Nicholas of Cusa as so-called pioneer of 'inter-religious dialogue' based on a close reading of the irenic Peace of Faith and the polemical Scrutiny of the Koran, together with his role in mounting a crusade for Pope Pius II."
- Gerald Christianson, Professor Emeritus of Church History, United Lutheran Seminary, Gettysburg; Past President, American Cusanus Society

"Nicholas of Cusa often is presented as a champion of interreligious dialogue. This book rightly brings to the fore Cusanus' often harsh polemic against Islam and his role in Pius II's crusade against the Turks."
- Thomas Izbicki, Humanities librarian emeritus, Rutgers University

This book is a meticulously researched and thought-provoking study that delves into the analysis and comparison of rituals in two distinct settings: the ancient Book of Leviticus and traditional Malagasy culture on the island of Madagascar. Author Olivier Randrianjaka investigates why Malagasy Christians connect with Leviticus despite the apathy of the Western church. As this book demonstrates, the key unifying themes are sin, purification, and sacrifice. Profound parallels emerge between Levitical rituals (such as postpartum purification and the Day of Atonement) and Malagasy rituals (such as taboo violation, postpartum purification, and the New Year royal bath). The study highlights the universal relevance of sin, purification and [...]. [Click here](#) to read more.

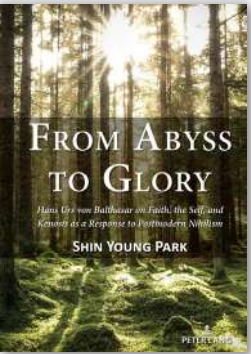

Nicholas of Cusa (1401–1464), thinker, polymath, and cardinal, had a long-standing interest in Islam. To date, however, no work has satisfactorily dealt with his volatile attitude towards the Islamic faith and the Ottoman Turks. This book revisits Nicholas of Cusa's attitude towards Islam, criticizing previous work that has overlooked Cusa's involvement in preparations for a crusade, and the significance of Cusa's polemical *A Scrutiny of the Koran (Cribratio Alkorani)* of 1461. The book also addresses the prevailing image of Cusa as a dove of peace and champion of interreligious dialogue, and suggests an alternative and more complex picture which takes account of Cusa's crusading [...]. Philosophy & Religion

This book constructively proposes that the work of Hans Urs von Balthasar is a credible alternative to the epistemological and ethical concerns of postmodernism, which arose from nineteenth-century nihilism and continues in contemporary thought and culture. It critically examines postmodern efforts to reclaim "faith," the "self " vis-à-vis the divine, and "kenosis" by revisiting and reframing the thinking of postmodern theorists (Nietzsche, Heidegger, Lyotard, Derrida, Vattimo) within von Balthasar's narrative of theological aesthetics and ethics. The heart of the author's theological alternative to postmodernism is the Gestalt Christi, through which von Balthasar strives to restore the connection between the beautiful and the transcendental, faith and ethics, and ultimately the human and the divine to take back [...]. Was prägt menschliche Existenz in einer Welt des Wandels? So fragt der Religionsphilosoph Thomas Brose aus Anlass seines 60. Geburtstags. Dieses Buch ist kein sentimentales Lagerfeuer, das zwischen Tür und Angel Trost stiften will, sondern nimmt die Spur eines Geheimnisses auf, das weniger in der Theorie als in der gelebten Praxis verborgen ist. Es schlägt eine Brücke zwischen Alpha und Omega, von A bis Z ein Einwand gegen das schnelle Vergessen (*Felicitas Hoppe*). Thomas Brose eröffnet Räume und schafft neue, oft überraschende Verbindungen – zwischen Gedanken und Ideen, Denkern und Dichtern, einstmals und heute lebenden Menschen. Er ist ein Brückenbauer – zwischen der Theologie und der Philosophie, zwischen Ost und West, zwischen Wissenschaft und Feuilleton (*Holger Zaborowski*).

This volume is the first of its kind to focus entirely on food in the context of pilgrimage and faith-based tourism. It presents key studies that are relevant to academics, pilgrimage stakeholders, faith-based tourism stakeholders, planning and policy makers, tourist guides, students and interested readers alike. The knowledge and rich contents should find its way into practical applications and educational materials in the field. The value of this edited collection lies in the approach of the contributors, who have explored food as a complement to spiritual experience in the context of pilgrimage and faith-based tourism. They demonstrate how giving, receiving and sharing promotes respect and understanding. At the same time, food can be used as an active peace-building tool, promoting inclusion, bridging cultures and bringing harmony to the table and beyond.

Since the dawn of humanity, people have traveled in search of meaning and to petition for worldly and otherworldly blessings. In the twenty-first century, the number of people traveling to religious sacred sites on pilgrimage has increased more than at any point in human history. An increased demand for pilgrimage routes and trails with the spiritual rather than the religious walker in mind, has also led various enterprising groups and individuals to develop entirely new pilgrimage routes and trails. This book highlights this new chapter in pilgrimage and trail development with essays by pilgrimage scholars and practitioners working in over ten countries. Mount Athos is the chief centre of pilgrimage for Eastern Orthodox Christians. As the spiritual hub of the Orthodox world it is also home to more than two thousand monks. Each of its twenty monasteries welcomes thousands of pilgrims every year to venerate its holy icons, to make their confessions, and to listen to the wisdom of its elders. This book delves into the nature of pilgrimage, for both Western and Eastern Christians. It describes the pilgrim experience both from the standpoint of the visiting pilgrim (be it men to the Athonite monasteries or women to their daughter houses elsewhere) and from that of the receiving monk. This fascinating collection of essays discusses pilgrimage, the pilgrims, and the monks themselves. This book presents a significant new reading of the function of divine testing in Luke-Acts. By using narrative criticism, fresh readings are provided on these texts, which are often deemed "difficult" or "unintelligible" by modern readers. Author Cato Gulaker argues that the many allusions to divine testing make good sense within the theological rationale of Luke, including the idea of praying to God in order for him not to lead his petitioners into temptation. As this element of the New Testament writings in general, and Luke in particular, is largely overlooked in academic publications, this book will be vital for scholars, clergy, and the general reader interested in this aspect of the theology and cosmology of the two-part Lukan narrative.

Der Diskurs um Werte und Werthaltungen ist sowohl innerhalb des wirtschaftlichen und unternehmerischen Kontextes als auch im kirchlichen, theologischen und religionswissenschaftlichen Bereich ein aktuelles, kontrovers diskutiertes Thema. Anliegen des Sammelbandes ist es, eine Brücke zwischen Wissenschaft und Praxis, Betriebswirtschaftslehre, Religionswissenschaft und Theologie, Theorie und Empirie, Unternehmen und kirchlichen Organisationen sowie Lebenswelt und Religion zu schlagen. Der interdisziplinäre Ansatz versucht, durch eine vertiefte Auseinandersetzung mit der Wertethematik sowie durch einen multiperspektivischen Blick die oftmals komplexe wechselseitige Bezogenheit von Wirtschaft, Unternehmen, Werten und Religion differenzierter wahrzunehmen.

Bible and Theology in Africa

EDITED BY KNUT HOLTER

The 20th century made sub-Saharan Africa a Christian continent. This formidable church growth is reflected in a wide range of attempts at contextualizing Christian theology and biblical interpretation in Africa. At a grassroots level ordinary Christians express their faith and read the Bible in ways reflecting their daily situation; at an academic level, theologians and biblical scholars relate the historical traditions and sources of Christianity to the socio- and religio-cultural context of Africa. In response to this, the series *Bible and Theology in Africa* aims at making African theology and biblical interpretation its subject as well as object, as the concerns of African theologians and biblical interpreters will be voiced and critically analyzed. Both Africans and Western authors are encouraged to consider this series.

Religion and Society in Africa

Studies in Biblical Greek

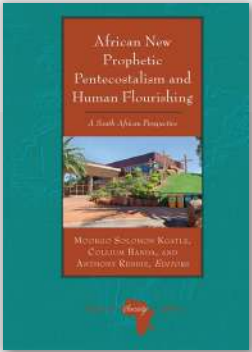

EDITED BY KNUT HOLTER

Both the social sciences and the humanities currently witness an increasing research interest for the interface between religion and society in Africa and in the African diaspora. *Religion and Society in Africa* is an interdisciplinary and multidisciplinary series aiming to participate in these discourses, by publishing studies that are analytically outstanding and provide new insights in the field. The series welcomes manuscripts that address religion and society in Africa and in the African diaspora from historical as well as contemporary perspectives.

This occasional series of monographs is designed to promote and publish the latest research into biblical Greek (Old and New Testaments). The series does not assume that biblical Greek is a distinct dialect within the larger world of koine, but focuses on these corpora because it recognizes the particular interest they generate. Research into the broader evidence of the period, including epigraphical and inscriptional materials, is welcome in the series, provided the results are cast in terms of their bearing on biblical Greek. Primarily, however, the series is devoted to fresh philological, syntactical, text-critical, and linguistic study of the Greek of the biblical books, with the subsidiary aim of displaying the contribution of such study to accurate exegesis.
